ABOUT THIS PROPERTY

The Loft That Makes Your Old Apartment Feel Like a Group ProjectSome places have square footage. This one has a vibe. This 2-bedroom modern industrial loft is built around an open-concept layout, and the natural light pouring in shows off every inch of its chic, loft-style design. Your plants will thrive, your photos will go viral, and your mood will probably improve too. We don't have a study to cite, but we believe it.You get two bedrooms, one for sleeping and one for whatever you decide it is: a guest room, a home office, or the room where you keep the ring light. Add in-unit laundry and you can say goodbye to quarters, shared basements, and laundromat Sundays. Your clothes can finally live in the same building as you.The commute is basically a rumor. Woodbine Subway Station is a 5-minute walk away, and Main GO Station is just 12 minutes on foot, so downtown is easy to reach and just as easy to escape. And when you're home, the Toronto Beaches, restaurants, cafes, and boutiques are all within easy reach. Brunch plans, sunset walks, and treating yourself to something you didn't need are all covered.It's a stylish, convenient city lifestyle without the stress. Book a showing before someone else claims the light.
