ABOUT THIS PROPERTY

All-inclusive: heat, hydro, and water included. A fully renovated one-bedroom suite at Pape & Danforth, finished from top to bottom. The modern kitchen has white shaker cabinetry, quartz countertops, a teal glass subway-tile backsplash, an undermount sink with a matte black pull-down faucet, a built-in cooktop, a microwave, and a stainless steel fridge. The bedroom has floor-to-ceiling built-in wardrobes with upper cabinets, so there's more storage than you'd expect. Wide-plank flooring and pot lights run throughout. The spa-inspired bathroom has marble-look porcelain tile, a glass sliding shower, matte black fixtures, and a medicine cabinet. The building's entrance, foyer, and hallways have also been freshly renovated, so the whole place feels new from the moment you walk in. Steps to Pape subway station, with the shops, cafes, and restaurants of the Danforth right at your door.
