ABOUT THIS PROPERTY

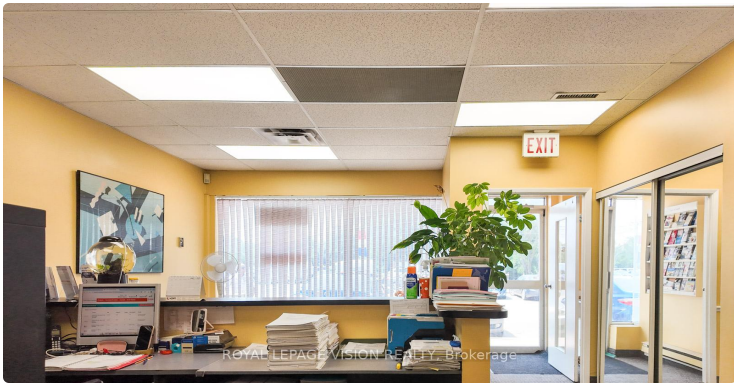

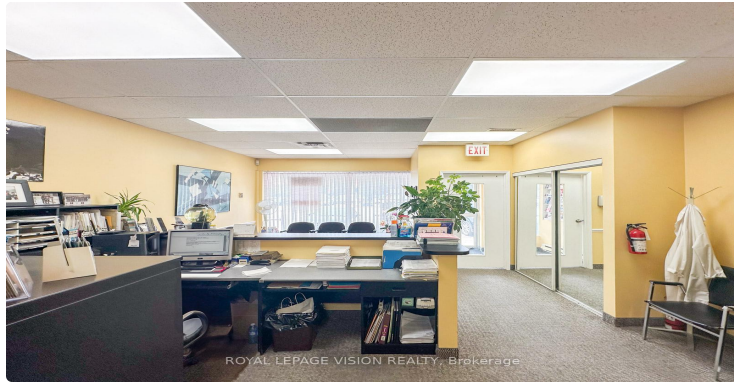

This versatile renovated office space is ideally suited for a wide range of professional uses, making it perfect for lawyers, real estate brokerages, medical or financial services such as accountants, mortgage brokers, or insurance advisors. The layout also accommodates consultants, business advisors, immigration services, and notary public practices. It can host doctors, physiotherapists, chiropractors, optometrists, walk-in clinics, mental health professionals, or other health and wellness providers. The property is also an excellent fit for property management firms, architects, interior designers, and construction or development offices, while client-facing businesses such as tutoring centres, travel agencies, or recruitment firms would also thrive here. Its adaptable design further makes it attractive for coworking hubs, shared professional spaces, or virtual office operations, creating a strong opportunity for a mix of synergistic tenants. Its prime location ensures convenience for both practitioners and clients, with easy access to major highways (401, 400), public transit (including Weston GO Station), and abundant parking at the front and rear of the building.
