ABOUT THIS PROPERTY

This spacious lower-level suite is well-suited for medical professionals, health and wellness-related government agencies, or general office use. The building underwent a complete rebuild in 2019 and now features a clean, modern design that presents well. There is elevator access to all floors, on-site visitor parking, and one reserved parking space for this unit. Existing tenants include a pharmacy, physiotherapy clinic, dental office, minor surgery center, and family medical practitioners, making this an excellent option for a similar or supporting use. The suite is unfinished and can be tailored to your specific requirements, offering flexibility for a wide range of uses. The landlord may consider demising the space for the right tenant. It may also be suitable for storage. If additional space is needed, Unit LL2 is also available and can be combined to create a total of approximately 2,967 square feet. The building is located in a high-traffic area with excellent access to public transit, and strong pedestrian and vehicular visibility. This is a practical, well-positioned option for users seeking professional space in a highly accessible location.
